

RIB

Non Marking
Nicht Kreidend

Designed with the newest technologies, Ecomega RIB is the ideal product for forklifts which guarantees high elasticity and maximum comfort for the operator.

It's special, smooth compound and the large footprint improve the stability and the load dispersion on the ground of this tire. Built with a multi layered natural rubber compound process and a system of three different types of compounds to assure maximum elasticity and comfort, reducing the consumption, but not the tyre life. The sidewalls are reinforced to protect the tyre from lateral damages.

The beads profile avoid the intrusion of stones and other debris. Available also with non-marking version for special applications and in easy-mount fast/click version to fit rims without locking.

- _ HIGH ELASTICITY
- _ LARGE FOOTPRINT FOR A PERFECT STABILITY
- _ MAXIMUM COMFORT
